

Governance and AIM Rule 26

GLI Finance Limited (the “Company”) is committed to maintaining high standards of corporate governance throughout its operations and to ensuring that all of its practices are conducted transparently, ethically and efficiently. The Company believes that scrutinising all aspects of its business and reflecting, analysing and improving its procedures will minimise the potential for downside risk and improve shareholder value. Therefore, and in compliance with the updated AIM Rule 26, the Company has chosen to formalise its governance policies by complying with the version of the UK Corporate Governance Code published by the Financial Reporting Council in April 2016 (the “UK Code”). The Company has also considered the provisions of the Finance Sector Code of Corporate Governance, published by the Guernsey Financial Services Commission (“GFSC”) in September 2011 (the “Guernsey Code”).

In recognition of the Company’s evolution to a trading business and the internalisation of key management and administrative functions, the Board believes that applying the principles and reporting against the provisions of the UK Code accurately reflects the nature, scale and complexity of the business and enables Board to provide better information to shareholders than would have otherwise been possible by using an alternative corporate governance code. The Company’s robust corporate governance framework has been based on these principles and is designed to deliver the Group’s strategy.

As at 31 December 2017, the Company complied substantially with the relevant provisions of the UK Code and it is the intention of the Board that the Company will comply with these provisions throughout the year ending 31 December 2018, except where otherwise explained.

The Company has established specific committees and implemented certain policies, to ensure that:

- it is led by an effective board which is collectively responsible for the long-term success of the Company;
- the board and its committees have the appropriate balance of skills, experience, independence, and knowledge of the Company to enable them to discharge their respective duties and responsibilities effectively;
- the board establishes a formal and transparent arrangement for considering how it applies the corporate reporting, risk management, and internal control principles and for maintaining an appropriate relationship with the Company’s auditors; and
- there is a dialogue with shareholders based on the mutual understanding of objectives.

In addition, the Company has adopted policies in relation to:

- anti-corruption and bribery;
- whistleblowing; and
- IT, communications and systems;

so that all aspects of the Company are run in a robust and responsible way.

The board of directors is responsible for the proper management of the Company by formulating, reviewing and approving the Company’s strategy, budgets, and corporate actions. In order to achieve its objectives, the board complies substantially with the eighteen main principles and the supporting principles of the Code (and where it does not is specified below). The Company seeks to deliver long-term growth for shareholders and maintain a flexible, efficient and effective management framework within an entrepreneurial environment.

Additionally, the Company has appointed a professional company secretary who assists the Board of Directors in preparing for and running effective board meetings, including the timely dissemination of appropriate information. The company secretary provides guidance to the extent required by the board on certain aspects of the legal and regulatory environment, within which the Company operates.

The Board believes that long serving Directors should not be prevented from forming part of the Board or from acting as Chairman and no limit has been imposed on the overall length of service of the Directors. Each Director will retire, and seek reappointment at every third annual general meeting ("AGM"), with those serving for nine years or more subject to reappointment annually.
